

Certified Spices

Pacific Blends Ltd. is pleased to offer a complete line of high quality, ultra low bacteria spices. Spices are sterilized using our unique electron beam treatment (similar to x-ray), resulting in certified total plate count of 1000 cfu per gram or less. Typical results are below 100 cfu per gram. The use of sterilized spices will provide the benefit of extending shelf life, will assist in achieving better colour and flavour and will help reduce the chance of spoilage. Here is a sample list of ingredients:

Allspice (<i>Cracked & Ground</i>)	Cinnamon Sticks 6"	Oregano (<i>Ground & Rubbed</i>)
